Summary

I worked many years in higher education, conducted research in Poland and abroad, lectures in foreign academic centers, organized international cooperation and conferences, and completed a three-month internship abroad. In 2015, I started design websites, and in 2018 I finally decided to take a new career path and develop in frontend technologies. I have been working as a front-end developer since 2019.

Front-end Experience

- since 2019 commercial projects of websites: i.a. Research Institute for European Policy (jQuery), European Journal of Transformation Studies (JS), Diaspora Conference (React)
- since 2019 cooperation on the Żeton project - an application supporting autistic children (www.pojekt-zeton.pl)
- 2020 – Front-end Developer at Between.Pomiędzy Foundation (incl. design and realization education project of Minister of Culture and National Heritage)
- since March 2021 – Front-end Developer at Blue Media SA

Education and Courses

MSc (University of Gdańsk), **PhD** (University of Warsaw)

2019-2020 – “UX Designer” infoShare Academy course and “JavaScript + React od podstaw” Code.me course

2021 – “Creating websites in accordance with the WCAG 2.1 standard” The Visible Foundation

Skills and Tools

- **JavaScript (ECMAScript 6), HTML5, CSS3, SASS/SCSS**
- Libraries: **React (with Redux), jQuery, Styled Components**
- Frameworks: **Vue.js (with Vuex), Bootstrap4, Gatsby.js, Material-UI for React, Element-UI**
- **GIT, GitHub, GitLab, npm, gulp**
- **PHP, Node.js** – the basics
- **Visual Studio Code, Webstorm, Brackets, Crucible, Sourcetree**
- UX: **Figma, InVision, Balsamiq**
- UI: **GIMP, Inkscape, Illustrator, Photoshop, and others**
- Collaboration: **Slack, Jira, Asana, Trello**
- WCAG 2.0, Material Design, Atomic Design, Skeumorphic Design, Glassmorphic Design, Human Interface RWD, Material UI

Hobbies

new technologies, design, art, and travels, motorcycles, rugby
